Integrated wristband

The solution is in your hands

Document with an identification wristband incorporated that can be printed with variable data Based on the needs of our customers, any information needed can be added.

It is certainly the ideal solution for the identification and control of people.

What is its scope of application?

- Healthcare centres (hospitals, clinics, etc).
- Access control at events, fairs, theme parks, stations, etc.
- Hotels, tour operators, agencies, etc.
- Promotional activities.

Advantages

- It can be customised with variable data (bar codes, numbers, names).
- It can be printed with a laser or conventional inkjet printer.
- It eliminates the margin of error since the document with both elements is printed in one step.
- Material resistant to any external aggression (water, breakage, etc).
- It is personal and non-transferable, for one time use to avoid impersonation.
- Dermatologist tested, hypoallergenic.
- It allows integration of a RFID tag.
