Spools

Rely on the security of working with the leader

Impaorsa has established itself – after more than two decades of experience in the industry – as one of the major production companies for spools with complex finishes within the graphic arts field.

This product line is strategic, as the company has extensive experience and expertise, positioning itself as the Spanish market leader in complex finishes, offering quality at the hands of the best brands in pre-printed papers.

Impaorsa has the best machinery and technology capable of providing finishes to suit all our customers' needs. It also has a production capacity of up to two-and-half million/day for an A4 format.

Advantages

For customers needing to process lots of information, we offer:

- Up to eight offset printing units.
- Up to two flexograph units.
- Die-cutting with different types of slotting, perforations and emptying.
- Works with 24", 23 2/6", 22" and 20" formats.
- Preprint papers from the best brands.
- Finished on spools with integrated labels, magnets, cards, etc.
- Use of special inks like gold, silver, scratch, glaze and glue.
